IT'S APRIL 15th!

If you're not aware that individual income tax returns are due, it's probably too late to do anything about it (In Albuquerque, the main Post Office location on Broadway is open until midnight). For those corporate taxpayers, New Mexico's first tax bill signed by the governor this year takes effect, and half of the first quarterly estimated payment is due today for calendar year filers. The Board and staff wish you all many happy returns!

REGISTER NOW for the Sixth Annual New Mexico Tax Research Institute Tax Policy Conference: April 30 - May 1, at the Sandia Resort and Casino in Albuquerque. Members of NMTRI may attend for \$150.00 per person. Interested government or academic attendees may attend for \$155.00. Non-members are welcome for \$175.00. Registration includes continental breakfasts as well as lunch and reception on the 1st. Reservations and payment should be received no later than April 25, 2008; however last minute decision makers can call (505) 842-5833. CPE and CLE is available (depending on the final state of the agenda and MCLE Board determination, we anticipate 8.4 hrs of CLE and 10 hours of CPE).

The program will begin promptly at 9:00 a.m. (registration begins at 8:00 and a Board of Directors meeting will be held at 8:15 – see below).

Speakers will include:

Patrick Driessen, Senior Economist, U.S. Congress, Joint Committee on Taxation

Don't miss your chance to hear from a distinguished panel of presenters and contribute to good tax policy in New Mexico.

TIMES UP FOR GOVERNOR'S ACTION – DETAIL AND TABLE OF PASSED LEGISLATION

The 2009 Regular Session of the New Mexico Legislature and ended at noon March 21st. The Governor's last day to act on passed legislation was Friday, April 10th. Most of the drama of the veto pen surrounded issues like the death penalty repeal (signed), the state worker "double-dipper" limitations (vetoed), and government records access and publication (vetoed). Most tax legislation that passed both houses has become law.

Descriptions of passed and vetoed tax related legislation is follows, as does our updated table of bills now becoming law.

PASSED AND SIGNED LEGISLATION:

Econ. Dev./Enviro Tax Legislation:

Although carrying a material fiscal impact, it was no surprise to see the extension of the investment credit and double weighted sales factor for manufacturers pass both houses in the form of Speaker Lujan's House Bill 75. The proposal was broadly seen as necessary for New Mexico to maintain a quasi-competitive position with other states relative to their taxation of manufacturing, and hence met with little opposition.

Also passing was Senate Bill 237 CS, which expands and restructures the advanced energy tax credits. Essentially an investment credit for 6% of the capital cost of specific types of power generation facilities, the credit currently applies to CRS taxes. SB 237 would expand this to include individual income tax and also corporate income tax. It permits dis-proportional allocation of the income tax credits, as well as a ten year carry forward.

Senate Bills 257 and 291 expand income tax credits for solar energy systems and sustainable buildings, while HB 375 creates credits (30% up to \$9,000) for the cost of installing geothermal heat pumps. House Bill 554 would make the sale of biodiesel consisting of 90% or more vegetable or animal fat tax free.

Local Government Related Legislation:

Several changes to local option gross receipts tax changes passed both houses. House Bill 135 would allow Bernalillo County Commission to continue to impose its 1/16th % GRT option for health-related expenditures. Senate Bill 89 would allow, subject to voter approval, San Juan County to be authorized to re-impose the local hospital GRT more than once up to a total of 40 years and to modify the uses to which revenue could be put. Senate Bill 324 would allow Ruidoso and Ruidoso Downs to increase the Municipal Environmental GRT tax rate from 1/16% to 0.5%.

The tax increment financing of the Winrock parking garage in Albuquerque (SB467) was approved. Another TIDD related proposal, House Bill 451, enhances state oversight of Tax Increment Development Districts, and provide other changes and clarifications in their administration and notification obligations.

Property Tax Legislation:

House Tax Committee Chair Ed Sandoval's House Bill B 261 requires that prospective buyers of existing homes be notified that the property tax will go up and also that they be provided an estimate of their likely tax liability. While this proposal will not fix the inequity that occurs

when property values are limited for years and only adjusted to current value when the property is sold, it will presumably give buyers some warning of what their real property taxes will be.

House Bill 297 provides an exemption for commercial water property owned or sold by a nonprofit mutual domestic water association. House Bill 388 would create a special valuation method for wastewater system property. Such property would be valued at \$2.49 per 1,000 gallons of wastewater transmitted.

Senate Bill 647 creates the renewable energy financing district act, allowing local governments to create special property tax districts composed of property owners who agree to be assessed a levy to pay off the cost of installing renewable energy equipment on their property. Under the proposal, Districts would be authorized to issue bonds to finance equipment purchase and installation.

House Bill 466 creates a property tax exemption for property that is leased to a public school district for public school purposes.

Tax Administration Bills:

House Bill 257 re-writes the taxpayer confidentiality provisions of the tax administration act. In addition to breaking up this section so that future amendments are not so cumbersome, the measure provides clearer guidelines for the use of confidential information, and addresses potential conflicts with other legislation, including House Bill 337, which allows the sharing of certain taxpayer information with water and sanitation districts and House Bill 860 allowing sharing with regional transit districts (vetoed).

Senate Bill 219 conforms cigarette tax act definitions with those in the Master Settlement Agreement, prohibits sale of cigarettes by manufacturers not in the MSA, and allows the Department to revoke or suspend licenses for violations of the tax escrow requirements. It also exempts tribal sales from the tobacco products tax. In another attempt to improve compliance and enforcement, weight distance tax underreporting penalties are also proposed to be increased (SB213).

Vetoed Bills:

Only one revenue bill was vetoed, [HB 860](#) which provided for distribution to regional transit districts of amounts collected from the county regional transit GRT. Perhaps the Governor was concerned about conflicts between this bill and others he has signed that also amended the TAA confidentiality statutes.

In addition to our table below, the Legislative Council Service maintains copies of bills, compiles locators, and publishes lists of bill conflicts during the session. Most information, to include Legislative Finance Committee (“LFC”) fiscal impact reports (“FIR’s”), is available in a reasonably timely and electronic fashion from their rather robust website, which can be reached at <http://legis.state.nm.us/lcs/>. If you’re curious what the New Mexico Taxation and Revenue Department thinks about proposed legislation, you can find out from the list of their own FIR’s that they maintain on their website here: <https://ec3.state.nm.us/pdflists09/pdfindex.asp>. The

NMTRD maintains a group of analysts dedicated to tax related issues, and their work often serves as a basis or source for other agencies such as the LFC.

Bills with significant tax or revenue implications passed and signed:

If no effective date is mentioned, the bill lacks one and would take effect upon enactment, June 19, 2009. Effective date for GRT bills is July 1, 2009 unless otherwise noted. “TYBA” = Tax years beginning on or after. Other notes: CS=committee substitute; A =amended

States Facing Deficits Look at Tax Increases

The Wall Street Journal reported this week that at least 10 states are looking at large tax increases to address fiscal imbalances. In the western region these include Arizona, Oregon, Washington and California. Using information collected by the Rockefeller Institute of Government, the article reported that most western states faced deficits at least as serious as New Mexico's. The Journal article may be viewed [here](#).

NMTRI on the Radio

NMTRI staff Richard Anklam and Tom Clifford will be interviewed on radio Saturday morning on 770 Kkob AM. The program, targeted to matters of business and finance, will be aired at 6:00 am Saturday morning and hosted by NMTRI member Brad Steward of Pulakos & Alongi LTD. Richard and Tom will review the recent legislative session, discuss general tax policy issues and describe NMTRI's efforts to improve tax policy in the state.
